Microfilm of Parish Registers and Bishop's Transcripts at the County Record Office, Cambridge

In this list an asterisk (*) denotes those parishes for which registers covering part of the period of the film are deposited here; an obelus (†) those for which a modern transcript is similarly available; a double obelus (‡) those for which a facsimile transcript is available on request.

The list gives covering dates only. Further details of those for the bishop's transcripts, which are of baptisms, marriages and burials for given years and survive sporadically, are available. The originals of all of these, and of all the Hunts parish registers for which film is available here, are deposited at the County Record Office, Grammar School Walk, Huntingdon. Under a reciprocal arrangement microfilm of registers deposited here is available there.
