Tithe maps and apportionments for the Archdeaconry of Huntingdon, held at the County Record Office Huntingdon

Transferred from Ely Diocesan records, 15 June 1973. Originally catalogued in 1973.

The figure in brackets denoted chains to the inch of plan. Where no figure is given, the plan is an extract from an Ordnance Survey 1:2500 sheet.

The following abbreviations are used:

C coloured to show land use
W woodlands described
S shows pre-inclosure strips

The dates are usually those of the agreement or award which precedes the apportionment. In some cases it is that of the map or confirmation by the Tithe Commission. This may vary considerably (eg the Great Gidding agreement dates from 1843, but the confirmation dates only from 1851).

All the document reference codes in this list begin with the number 2196.
