

Race Equality and Cultural Diversity in Cambridgeshire - a race Equality pack for schools

The aim of this Pack is to help schools implement their race equality policies appropriately. It will provide a framework within which schools can develop and mainstream race equality initiatives so that they are embedded in practice and are linked with all other aspects of educational inclusion. It can be used as a self-evaluation tool to support schools in assessing and monitoring the impact of their policies, including the race equality policy, and practice, on different groups and individuals in the school.

This 188 page pack brings together a number of Cambridgeshire documents and guidelines on race equality and cultural diversity issues.

To download the full pack you will need to print out The Introduction together with Sections 1, 2, 3, 4, 5 & 6. One free hard copy is being sent to each school in the County. Additional hard copies are available to schools at a cost of £12.00 per copy.
