Training to support adults with a learning disability

PROACT-SCIPr-UK® training helps to prevent challenging behaviour in adults with a learning disability. The training supports staff to identify triggers and early behavioural indicators. This allows non-physical interventions before crisis point is reached.

We use PROACT-SCIPr-UK® as our preferred method of supporting individuals. Cambridgeshire County Council provides training to organisations which work with people with a learning disability.

PROACT-SCIPr-UK®:

- can improve the lives of people with a learning disability by avoiding situations escalating to crisis
- reduces the risk of staff injury
- gives people the skills to communicate their own needs, rather than presenting with a behavioural challenge

Training options

PROACT-SCIPr-UK® Introductory & Foundation - 2 days

This course gives a positive range of options to use when managing challenging behaviour. It covers a range of techniques to calm and de-escalate a situation to keep everyone safe.

£140

PROACT-SCIPr-UK® Refresher - 1 day

This course updates you around the use and implementation of the PROACT-SCIPr-UK® philosophy. It encourages you to reflect upon your practice and give you a positive range of options to use when managing challenging behaviour, including techniques to calm and de-escalate a situation.

£70

Book training online (<https://www.camblearntogether.co.uk/social-care-development-1/learning-and-development-adults/adults-learning-and-development-offer/>)
